

Avitech GmbH is one of the leading international developers of IT systems for the aviation industry. Our comprehensive expertise ranges from single components to complete solutions, and our products are used by civil and military air navigation service providers, government agencies, civil aviation authorities and airlines in more than 40 countries around the world.

Our workforce reflects our global international presence as we have skilled employees from 14 different nations working at our locations in Friedrichshafen, Bratislava, Frankfurt and Konstanz. If you too wish to join a highly motivated team of experts and help shape the future of the aviation industry, please send us your application. We are currently looking to fill the following position:

Test Engineer

The duties and responsibilities of the position include the following:

- Creating test plans and test specifications for testing certain software features in the scope of software development projects and customer projects
- Support in the development of the test strategy and improvement of the test process
- Continuous development and maintenance of test frameworks for both manual and automated testing
- Maintenance of Test Environment and Test Data
- Performing and evaluating software tests at our premises and at our customer sites
- Documenting test results in Test Reports
- Creating and tracking of issue reports
- Taking part in technical review of specifications

The successful candidate will fulfil the following requirements:

- Your structured and analytical thinking as well as your accurate method of operation together with your proactive approach and the capacity for teamwork are some of your characteristics
- You have experience in dealing with software and computer systems on different platforms (Windows, UNIX derivatives)
- You have practical knowledge of at least one script language
- You have practical experience with at least one automated test tool (e.g. TestComplete, QF-Test)
- Strong written and verbal communication skills in German and English
- You are a certified test engineer or you successfully completed technical studies in computer science or a similar apprenticeship and gained experience preferably as a test engineer

If you believe you are the right person to fill the position, please send your cover letter and CV to: job@avitech.aero ·
